Robinia Hammock Net

P-OSS-S-2134

Our Robinia Hammock Net provides a relaxing and inviting space for children to rest, relax and enjoy gentle movement. Featuring a durable net hammock suspended between two sturdy Robinia poles set securely into the ground, it creates a natural and engaging feature that encourages balance, coordination and sensory exploration.

Key Materials

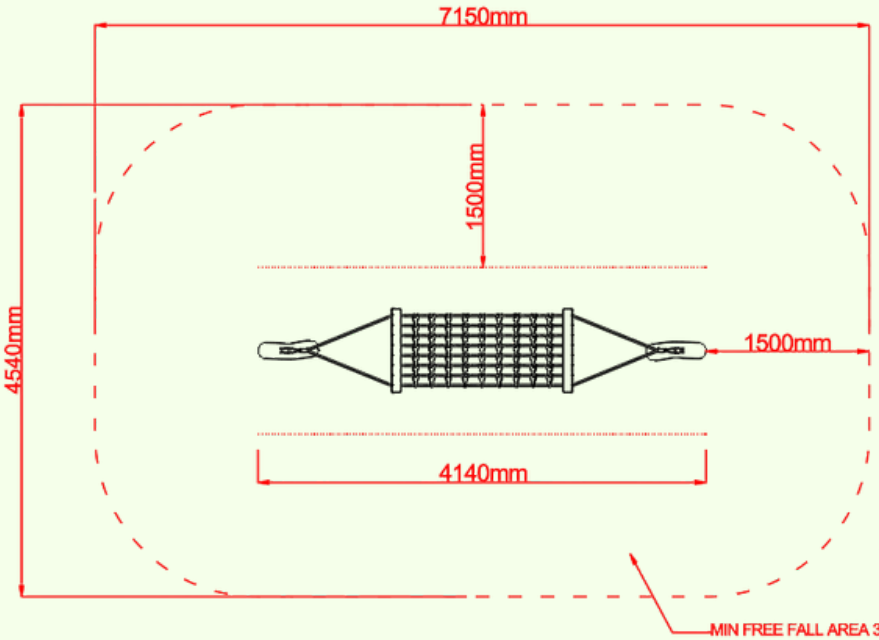

Robinia (Black Locust/False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

The hammock net is created from 4 strand wire reinforced rope woven together, this can be made using a variety of different colours. The hammock ends are made using robinia timber.
The hanging bridles are fabricated using wire reinforced rope.

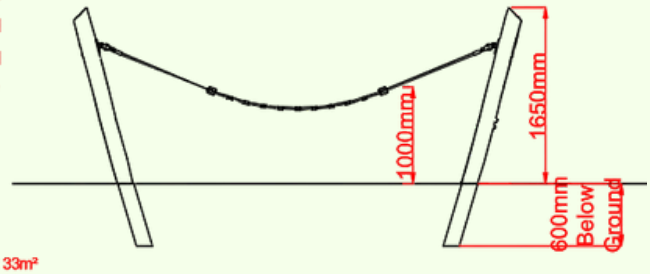

Drawings

Plan

Contact us if loose-fill flooring is used (e.g bark), as an extra 300 mm will need to be allowed for into ground.
