Active Play Bundle – Set of 7

P-PE-CE-0146

The Active Play Bundle brings together seven timber activities to create a varied route for climbing, balancing, stepping and physical challenge. Handcrafted from durable FSC-certified timber, the set encourages children to explore different movements while developing balance, coordination, strength, agility and gross motor skills. The combination of activities provides opportunities for children to challenge themselves at their own pace and build physical confidence through play. Ideal for schools and outdoor play spaces looking to create a complete active play or timber trim trail area.

Bundle includes: 3x Adjustable Hurdles, 1x Tiered Steps, 1x Hop Along Steps, 1x Balance Beam, and 1x Log Ladder Crossing. Please see the individual bundle items (pages 2-6) for specific product dimensions and further information.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

Artificial grass provides a soft and tactile surface, making it more comfortable when climbing. The grass is a fantastic 30mm entry range grass with 'Wave' shaped blades for great 'spring back'.

Unperforated twin pipe used in this product is manufactured from HDPE and complies with HAPAS BBA. The pipe is known to be strong, with a corrugated outer wall and smooth inner wall.

The 30mm diameter HDPE Black rods are known for their excellent chemical resistance, high impact strength, and low moisture absorption.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.

18mm thick, anti-slip mesh phenolic birch plywood sheets are fitted to reduce the risk of slips and falls.

The fixing points are covered with Green tamper-proof plastic capping's. The caps are securely fastened and boast a smooth feel. The caps are approx. 36mm.

Adjustable Hurdles

P-PE-CE-7256

Our Adjustable Hurdles create a versatile active play challenge that encourages children to step, jump and navigate their way across the course. Handcrafted from durable FSC-certified timber, they can be adapted to provide different levels of physical challenge as children's confidence and ability develop. Hurdle activities support balance, coordination, agility, gross motor skills and spatial awareness. Ideal for schools, playgrounds and outdoor activity areas, they provide an engaging addition to active play, PE and physical development spaces.

Tiered Steps

P-PE-CE-1887

The Tiered Steps create a varied physical challenge by encouraging children to navigate changing heights as they climb, step and balance. Handcrafted from durable FSC-certified timber, the different levels help develop coordination, balance, spatial awareness, gross motor skills and confidence through active play. Their simple, versatile design makes them suitable for nurseries, schools, parks and outdoor play environments, either as a standalone activity or incorporated into a larger timber climbing or trim trail course.

Hop Along Steps

P-PE-CE-8059

The Hop Along Steps encourage children to step, hop and travel between individual timber platforms, creating an engaging balance and coordination challenge. Handcrafted from durable FSC-certified timber, they support active play while helping children develop gross motor skills, spatial awareness, agility and confidence. Children can experiment with different ways of moving between each step, adding opportunities for problem-solving and imaginative play. Ideal for nurseries, schools, parks and outdoor play areas, they are a versatile addition to any active play space.

Balance Beam

Our Balance Beams provide a simple but effective physical challenge that encourages children to balance, traverse and develop confidence through active play. Handcrafted from durable FSC-certified timber, the three beams can create a varied balancing route within playground and outdoor learning environments. Balance activities help develop coordination, core stability, spatial awareness and gross motor skills. Ideal for nurseries, schools and parks, the set can be used independently or incorporated into a larger timber trim trail.

Note: In this bundle, only one balance beam is included.

Log Ladder Crossing

P-PE-CE-6835

The Log Ladder Crossing challenges children to climb and travel across a series of timber rungs while developing confidence through active play. Handcrafted from durable FSC-certified timber, the crossing encourages balance, coordination, grip strength and whole-body movement as children navigate from one side to the other. Ideal for schools, playgrounds and outdoor activity areas, it works well as a standalone physical challenge or as part of a larger timber trim trail or active play course.
