Adjustable Hurdles

P-PE-CE-7256

Our Adjustable Hurdles create a versatile active play challenge that encourages children to step, jump and navigate their way across the course. Handcrafted from durable FSC-certified timber, they can be adapted to provide different levels of physical challenge as children's confidence and ability develop. Hurdle activities support balance, coordination, agility, gross motor skills and spatial awareness. Ideal for schools, playgrounds and outdoor activity areas, they provide an engaging addition to active play, PE and physical development spaces.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

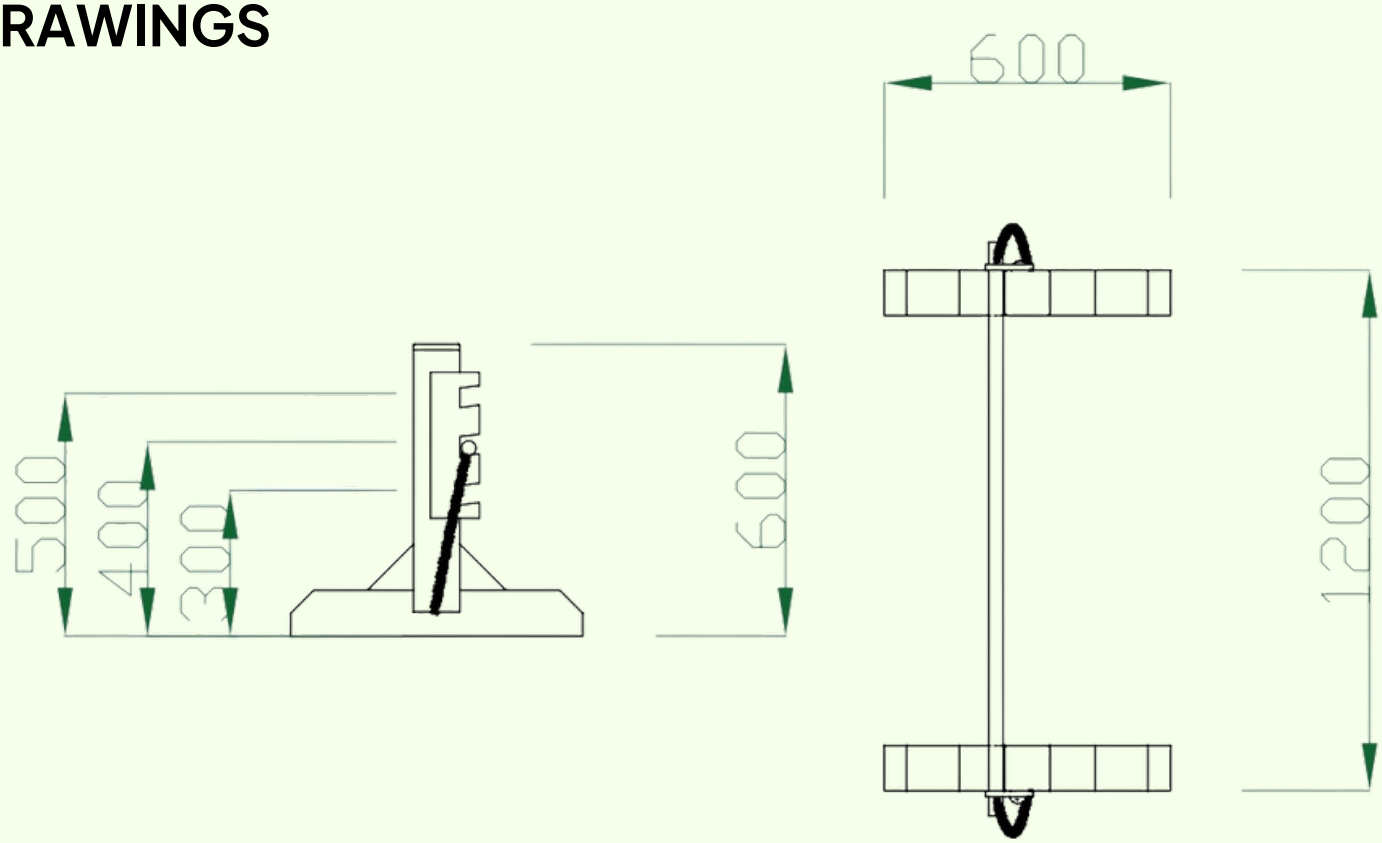

The 30mm diameter HDPE Black rods are known for their excellent chemical resistance, high impact strength, and low moisture absorption.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.
