Aleck Low
Toddler Adventure Tower

P-PE-AT-7055

The Aleck Low Toddler Adventure Tower is a compact and engaging addition to any outdoor play space, designed specifically for younger children to explore, climb, and build confidence through play. Crafted from durable natural robinia timber, it blends seamlessly into outdoor environments while providing a sturdy and reliable structure for everyday use. Complete with an exciting slide feature, it encourages active movement, coordination, and imaginative play in a fun and accessible way.

Suitable for ages 2+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti. 19mm thick HDPE sheet material is used on the sides and wings of each slide.

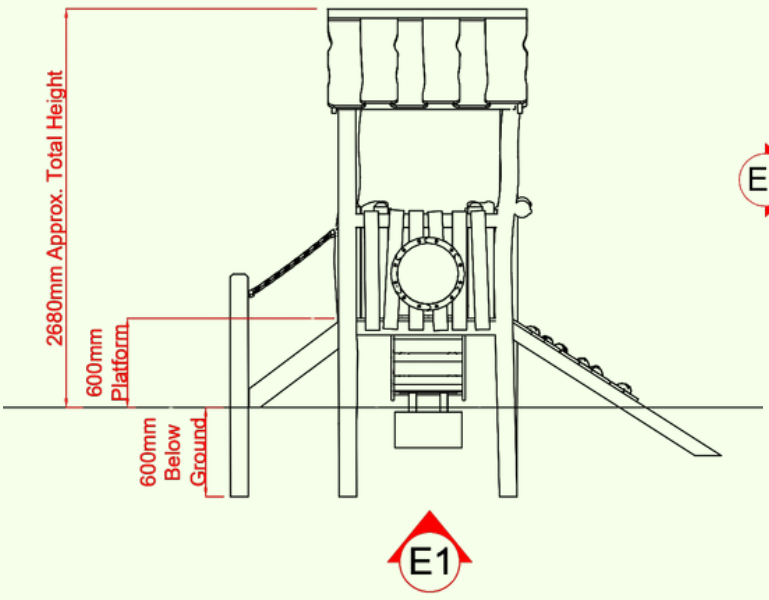

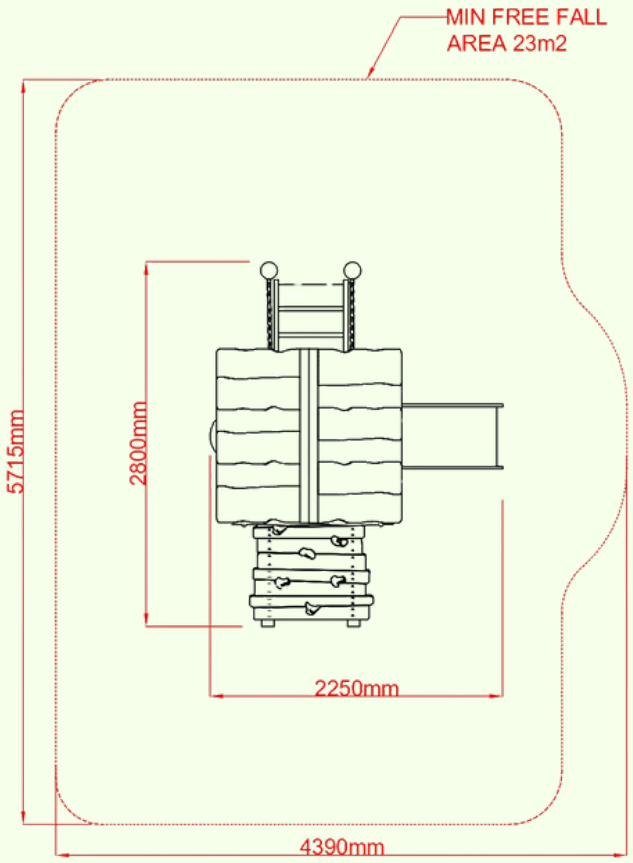

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 23m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
