Alport Moor (with Slide Platform) Triple Scramble Stack

P-PE-SS-9109

The Alport Moor Robinia Scramble Stack is an adventurous and physically engaging obstacle, designed for primary school aged children. This product is excellent for improving muscle development, balance, stability, core strength, confidence, and concentration. As it can be used by multiple children at once, it also encourages social interaction and relationship-building through co-operation, negotiation, turn-taking, and shared play.

Suitable for ages 5+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti. 19mm thick HDPE sheet material is used on the sides and wings of each slide.

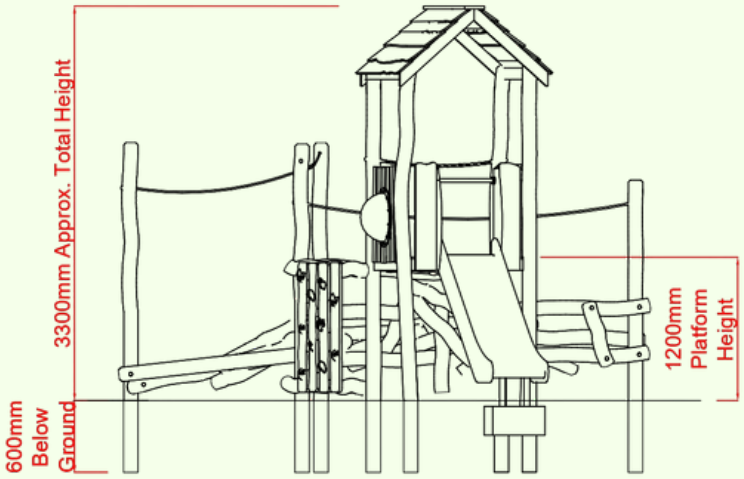

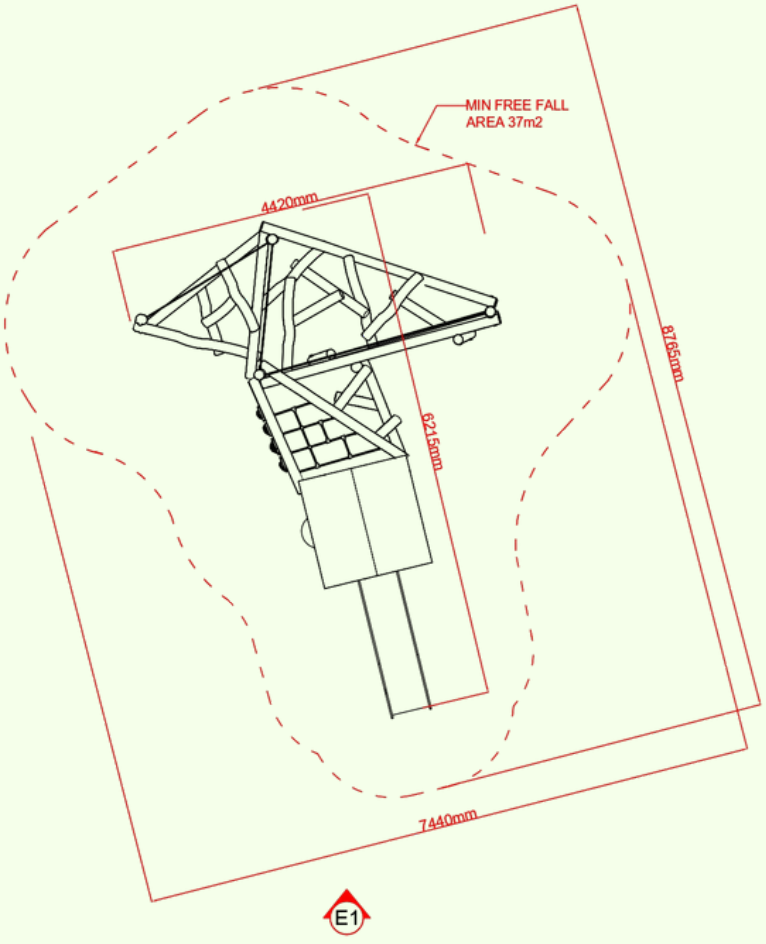

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 37m2
Max fall height - 1200mm

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.

Alport Moor (with Steel Slide Platform) Triple Scramble Stack

P-PE-SS-9109

The Alport Moor Robinia Scramble Stack is an adventurous and physically engaging obstacle, designed for primary school aged children. This product is excellent for improving muscle development, balance, stability, core strength, confidence, and concentration. As it can be used by multiple children at once, it also encourages social interaction and relationship-building through co-operation, negotiation, turn-taking, and shared play.

Suitable for ages 5+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

S304-grade stainless steel is highly durable and corrosion-resistant, making it ideal for our slides. It stays smooth, rust-free, and low-maintenance, ensuring safety and a long-lasting, high-quality finish.

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.
