Arch Grass Tunnel

P-PE-CE-3383

The Arch Grass Tunnel encourages children to crawl, climb and explore through active and imaginative play. Handcrafted from durable FSC-certified timber and finished with artificial grass, its curved design creates opportunities for children to travel underneath, climb over and incorporate the tunnel into their own games. Crawling and climbing help support gross motor development, coordination, balance and spatial awareness. Ideal for nurseries, EYFS settings, schools and outdoor play areas, it provides a versatile physical challenge with plenty of imaginative play potential.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

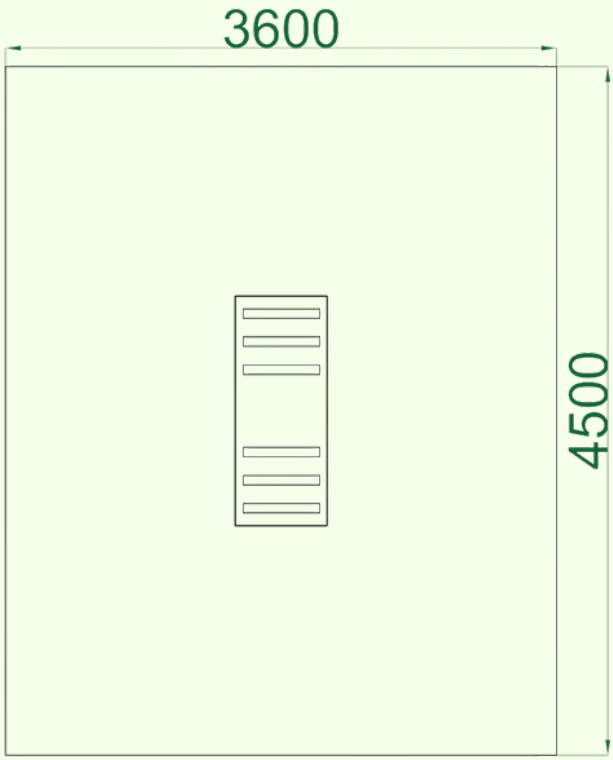

Artificial grass provides a soft and tactile surface, making it more comfortable when climbing. The grass is a fantastic 30mm entry range grass with 'Wave' shaped blades for great 'spring back'.

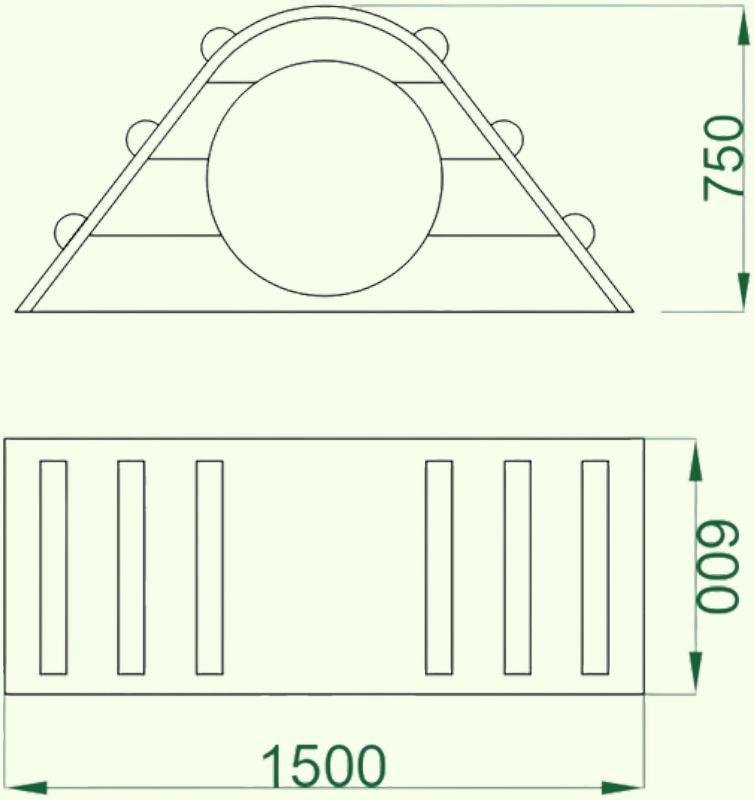

Unperforated twin pipe used in this product is manufactured from HDPE and complies with HAPAS BBA. The pipe is known to be strong, with a corrugated outer wall and smooth inner wall.
