Balance Beams – Set of 3

P-PE-CE-7991

Our Balance Beams Set of 3 provides a simple but effective physical challenge that encourages children to balance, traverse and develop confidence through active play. Handcrafted from durable FSC-certified timber, the three beams can create a varied balancing route within playground and outdoor learning environments. Balance activities help develop coordination, core stability, spatial awareness and gross motor skills. Ideal for nurseries, schools and parks, the set can be used independently or incorporated into a larger timber trim trail.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

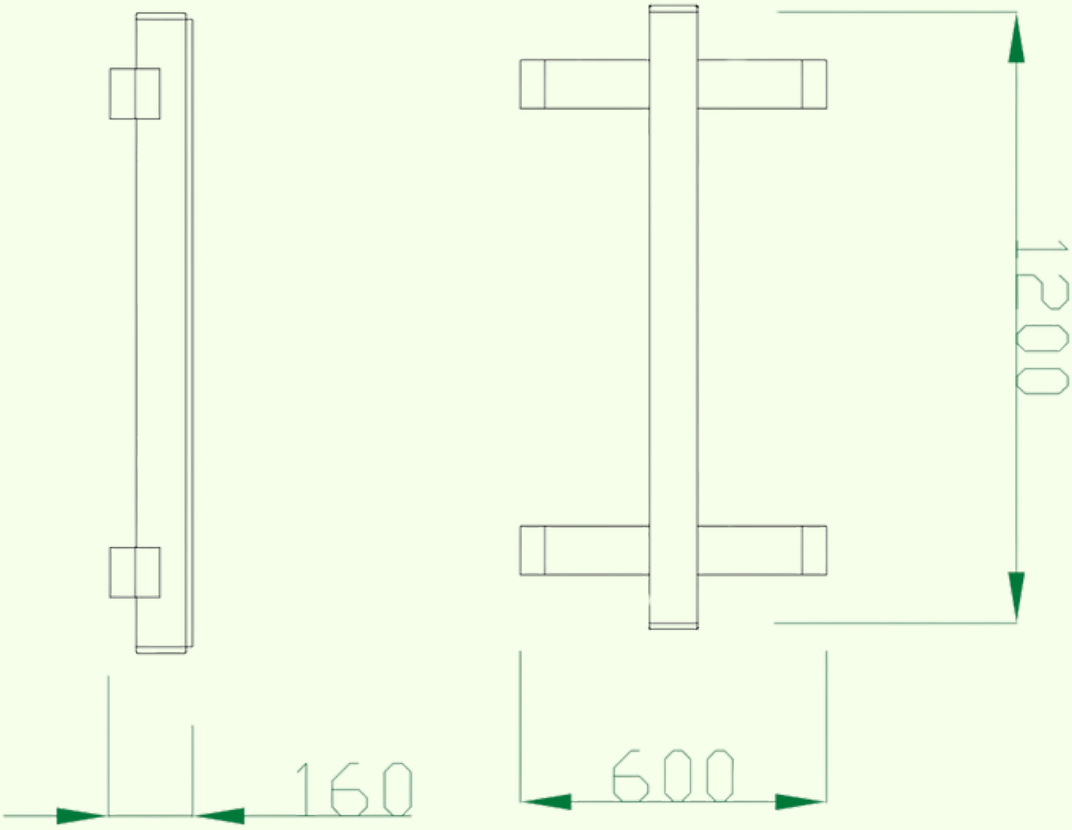

18mm thick, anti-slip mesh phenolic birch plywood sheets are fitted to reduce the risk of slips and falls.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.
