Boom Whackers

P-PE-MP-6433

The Boom Whackers encourage children to explore sound, rhythm and cause and effect through interactive outdoor music play. Supported by naturally durable Robinia timber, children can strike the different musical elements to discover contrasting sounds and create their own rhythms. Musical play supports coordination, listening, creativity and collaborative play while offering an engaging sensory experience. Ideal for nurseries, schools, parks and inclusive playground environments, they work well as a standalone activity or alongside other outdoor musical equipment.

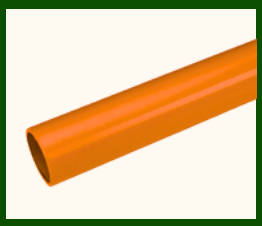

Suitable for ages 3+

KEY MATERIALS

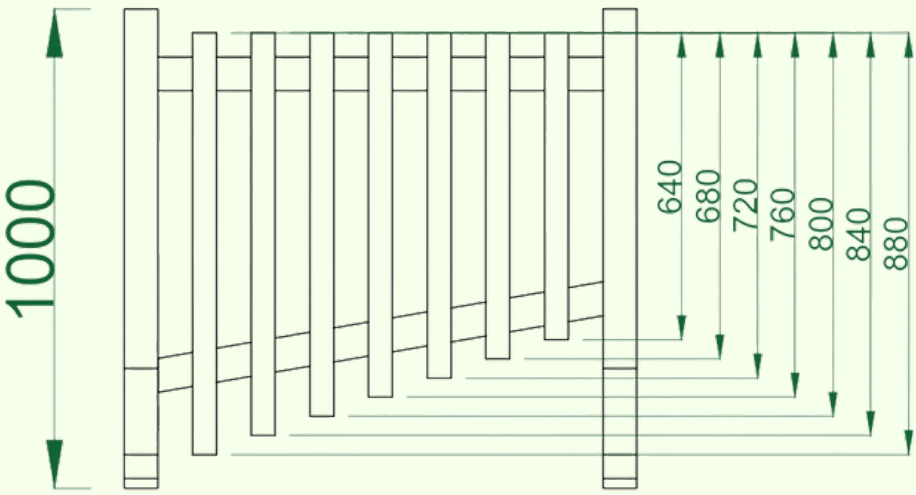

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

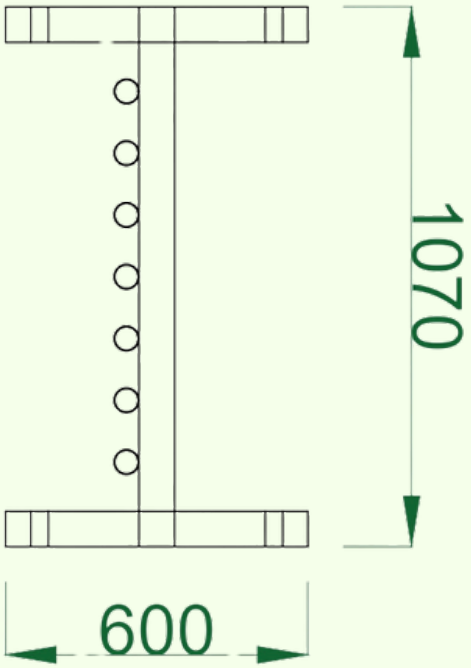

The metal percussion tubes vary in both length and colour, with the intension of creating 7 different tunes due to the changes in length. All are cut to length and de-burred, then powder-coated.

DRAWINGS

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
