Brownhill
Low Basket

P-PE-S-8028

The Brownhill Low Basket is a charming yet unique addition to any outdoor area! It can be used by more than one child at a time, making it perfect for social interaction and relationship-building through play. This product is made more versatile than tradition swings, as unlike others, this particular basket swing is suspended from low height Robinia corner posts, making it more static, and better suited to smaller playgrounds, where the fall space required for larger swinging sets may not be able to be achieved.

Suitable for ages 3+

KEY MATERIALS

Robinia (Black Locust/False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

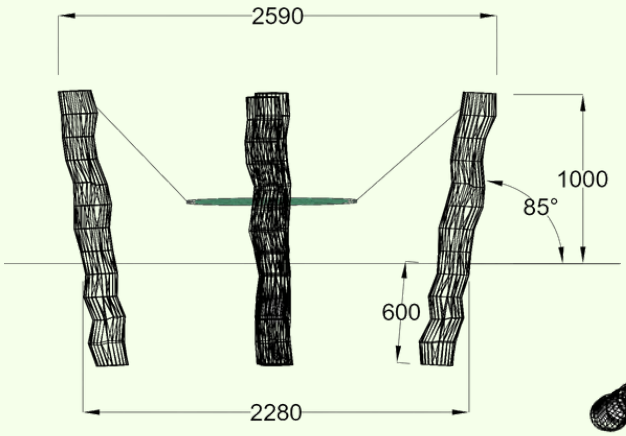

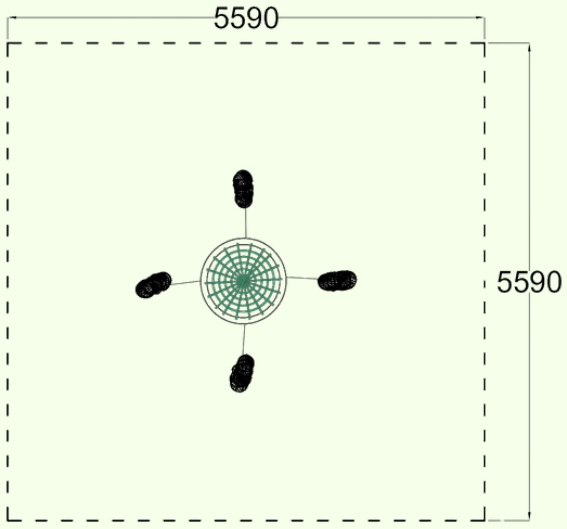

The 1300mm nest basket seat is made from 4 strand 16mm wire reinforced rope with 24mm polypropylene shock absorbing rope wrapped around a galvanised steel ring.

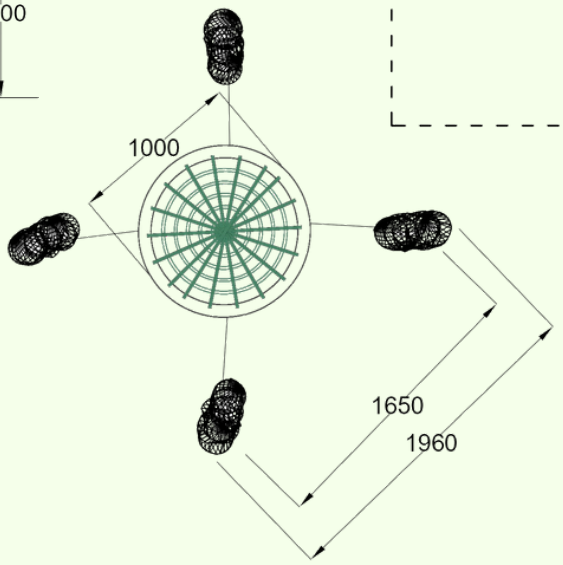

DRAWINGS

Free fall/surfacing area - Approx. 32m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
