Double Sided Net Frame

P-PE-CE-5439

The Double Sided Net Frame provides an engaging climbing challenge that can be explored from both sides. Handcrafted from durable FSC-certified timber with climbing net elements, it encourages children to climb, traverse and find their own route across the structure. Active climbing supports upper-body strength, grip, balance, coordination and problem-solving skills. Ideal for schools, parks and outdoor play spaces, its double-sided design also allows several children to play and challenge themselves together.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

Ropes used are polypropylene covered with a galvanized steel core. The rope is 16mm in thickness, and secured by a tamper-proof plastic connecting point, that's hydraulicly pressed into place.

The fixing points are covered with Green tamper-proof plastic capping's. The caps are securely fastened and boast a smooth feel. The caps are approx. 36mm.
