Durham Edge – with Stainless Steel Slide Triple Mining Adventure Tower

P-PE-TP-9578

The Durham Edge Triple Mining Adventure Tower creates a substantial themed playground feature combining climbing, exploration and imaginative role play across multiple connected towers. Inspired by mining heritage, children can navigate different routes, levels and play features while creating their own underground adventures and stories. The varied physical challenges support balance, coordination, strength, problem-solving and confidence through active play. Ideal for schools, parks, visitor attractions and destination playgrounds looking for a distinctive themed centrepiece with strong play value.

Suitable for ages 5+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

S304-grade stainless steel is highly durable and corrosion-resistant, making it ideal for our slides. It stays smooth, rust-free, and low-maintenance, ensuring safety and a long-lasting, high-quality finish.

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 56m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
