Grass Climbing Frame

P-PE-CE-6767

The Grass Climbing Frame introduces younger children to climbing and physical challenge at an accessible height. Handcrafted from durable FSC-certified pressure-treated timber, with artificial grass and robust Stokbord elements, both sides provide opportunities to climb, balance and explore. Active play helps develop gross motor skills, coordination, core strength, balance and confidence. Its compact, freestanding design makes it ideal for nurseries, EYFS settings, schools and smaller outdoor play spaces looking to introduce engaging climbing equipment.

Suitable for ages 2+

KEY MATERIALS

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

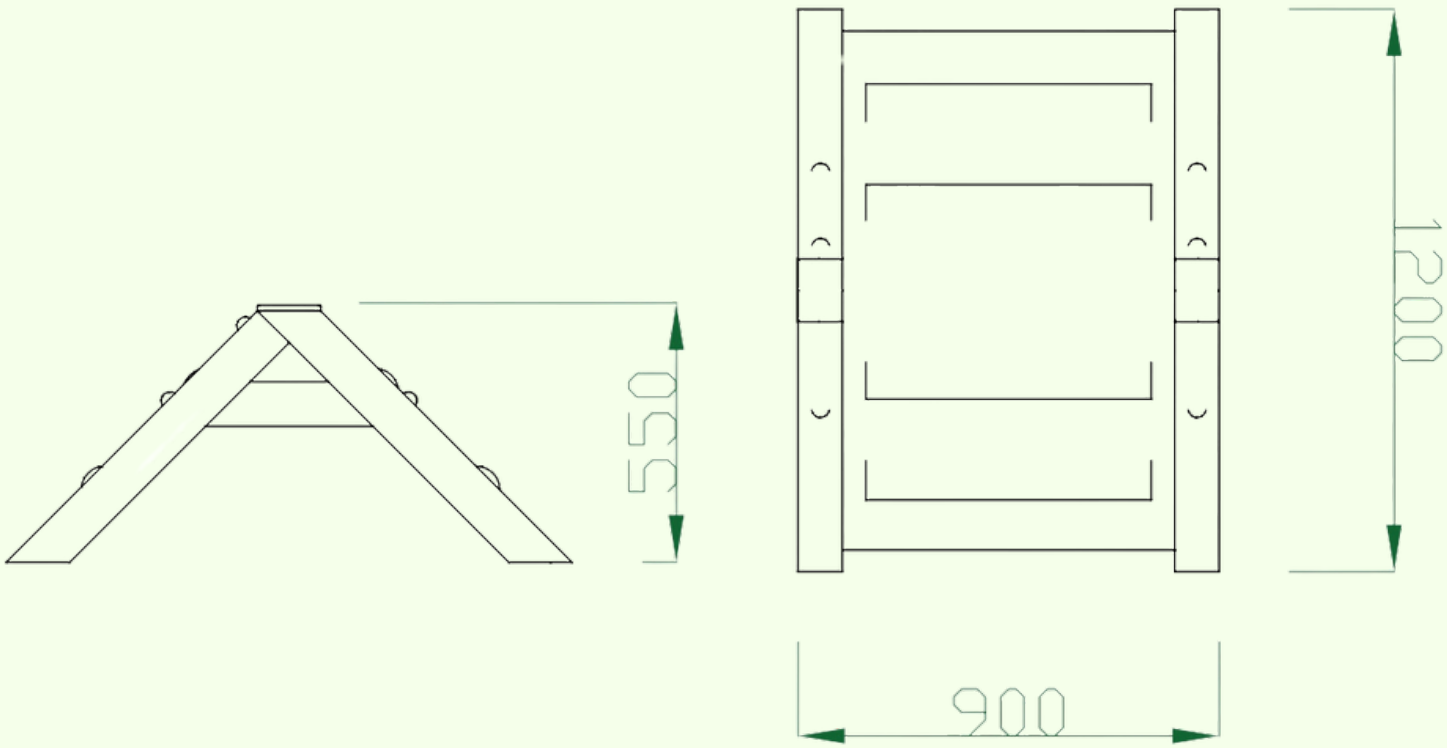

Artificial grass provides a soft and tactile surface, making it more comfortable when climbing. The grass is a fantastic 30mm entry range grass with 'Wave' shaped blades for great 'spring back'.

The fixing points are covered with Green tamper-proof plastic capping's. The caps are securely fastened and boast a smooth feel. The caps are approx. 36mm.
