Millstone
Wobble Log Crossing

P-PE-TTI-5761

The Millstone Wobble Log Crossing challenges children to travel across a series of individual Robinia timber steps, testing balance, coordination and spatial awareness as they move. Different foot positions encourage children to plan each step and build confidence through active play. Made from naturally durable Robinia timber, its organic appearance complements natural playground environments and makes it an ideal balance activity for schools, parks, nurseries and larger Robinia trim trails.

Suitable for ages 5+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

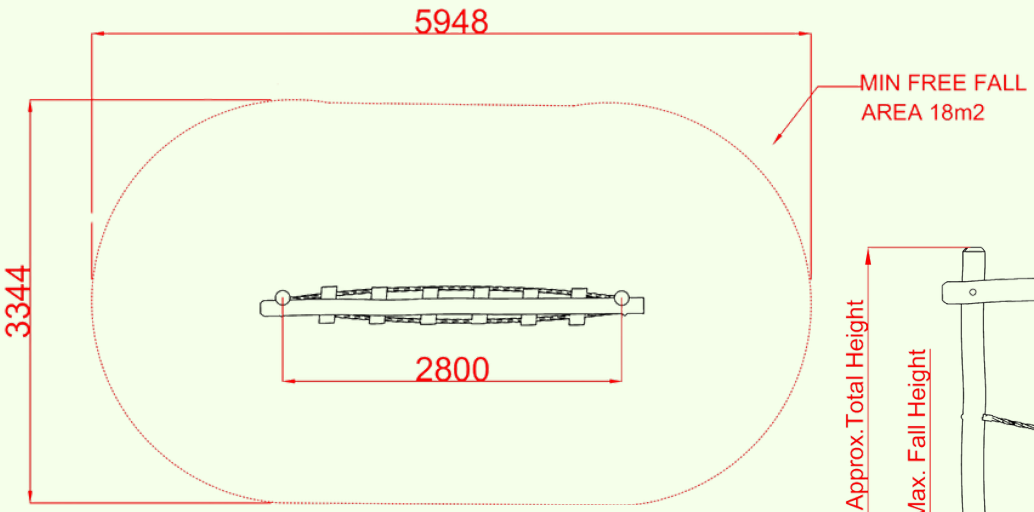

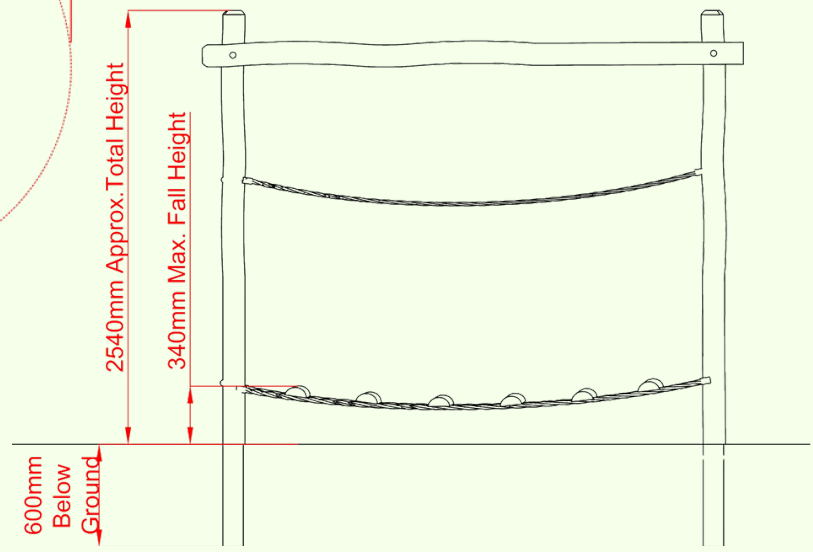

Ropes used are polypropylene covered with a galvanized steel core. The rope is 16mm in thickness, and secured by a tamper-proof plastic connecting point, that's hydraulicly pressed into place.

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 18m2
Max fall height - 340mm

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
