Pilsbury Lodge
Single Adventure Tower

P-PE-AT-9101

The Pilsbury Lodge Single Adventure Tower is a dynamic and engaging addition to any outdoor play space, designed to encourage children to climb, explore, and build confidence through active play. Crafted from durable natural robinia timber, it offers a strong and reliable structure that blends seamlessly into outdoor environments. Inspired by the resilience of coastal towers, this unit provides an exciting play experience with elevated elements and a thrilling slide feature. It promotes movement, coordination, and imaginative play, making it ideal for schools, parks, and community settings.

Suitable for ages 3+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti. 19mm thick HDPE sheet material is used on the sides and wings of each slide.

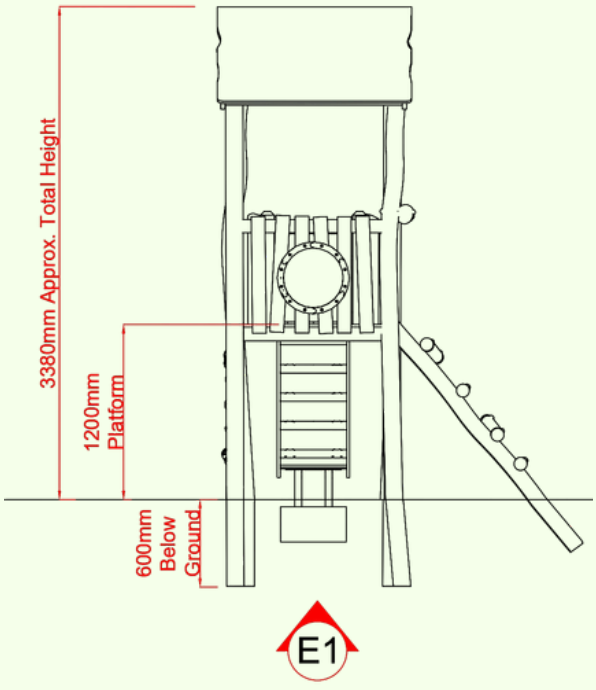

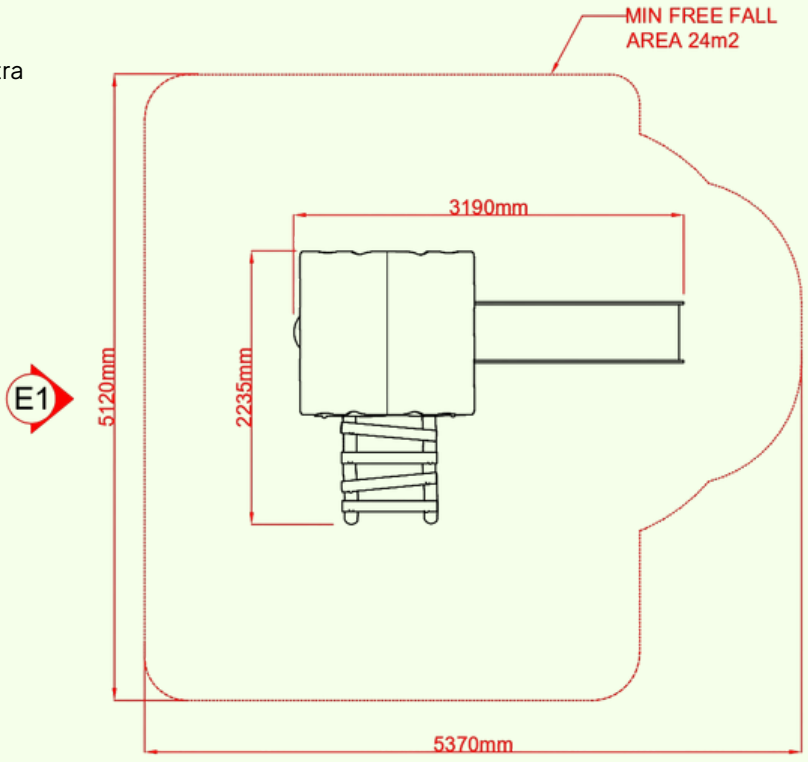

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 24m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
