Rainster Rocks
Double Adventure Tower

P-PE-AT-5647

The Rainster Rocks Double Adventure Tower is an exciting and engaging addition to any outdoor play space, designed to inspire exploration, balance, and imaginative play. Crafted from durable natural robinia timber, this impressive twin-tower structure creates a dynamic play experience, encouraging children to move between levels using the connecting robinia log bridge. With its strong natural materials and engaging layout, it blends seamlessly into outdoor environments while offering a fun and challenging adventure for active play.

Suitable for ages 3+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti. 19mm thick HDPE sheet material is used on the sides and wings of each slide.

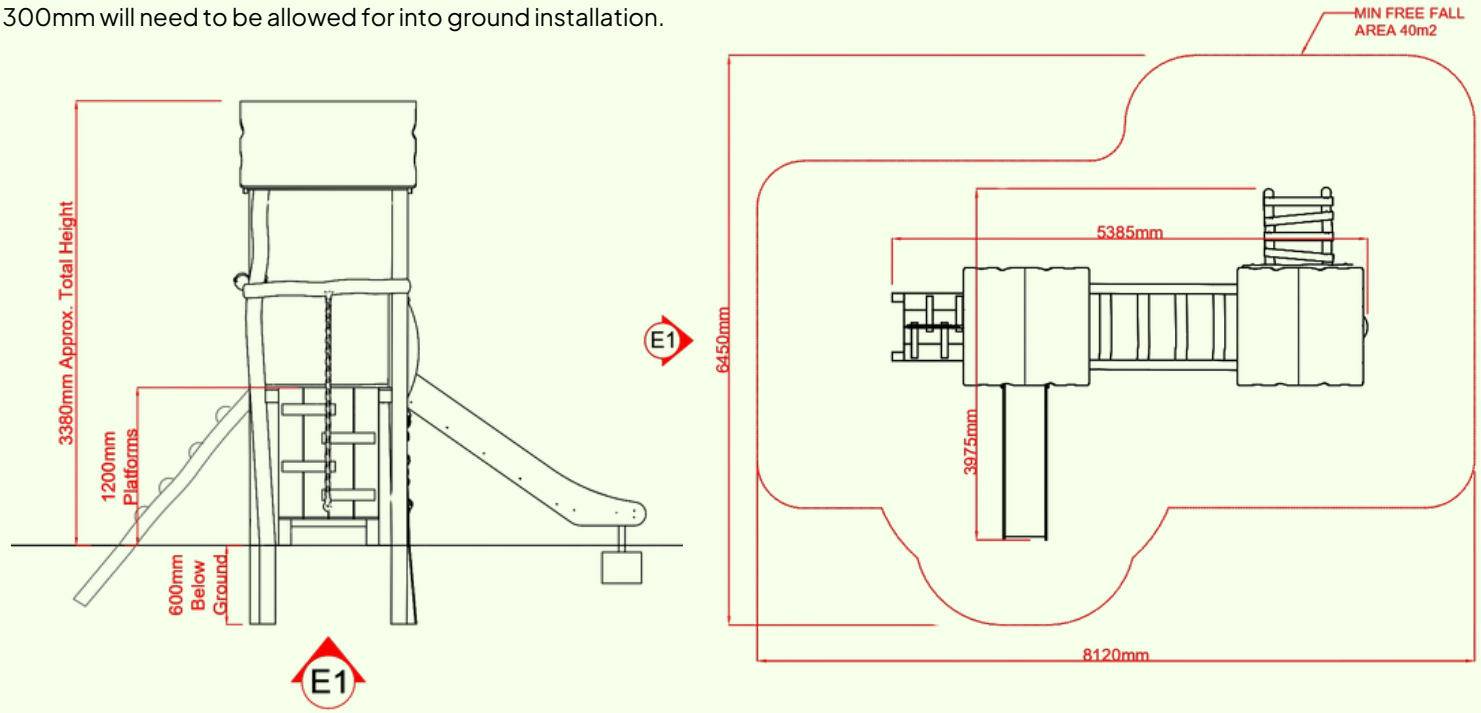

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 40m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.

Rainster Rocks – with Stainless Steel Slide Double Adventure Tower
