Slipper Low
Toddler Mining Adventure Tower

P-PE-TP-6017

The Slipper Low Toddler Mining Adventure Tower combines imaginative themed play with accessible climbing and exploration for younger children. Inspired by the world of mining, it encourages children to climb, explore and create their own adventures while developing balance, coordination, gross motor skills and confidence. The lower-level design introduces physical challenge in an age-appropriate way, making it ideal for nurseries, EYFS settings, schools, visitor attractions and themed outdoor play areas.

Suitable for ages 2+

KEY MATERIALS

Robinia (Black Locust / False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti. 19mm thick HDPE sheet material is used on the sides and wings of each slide.

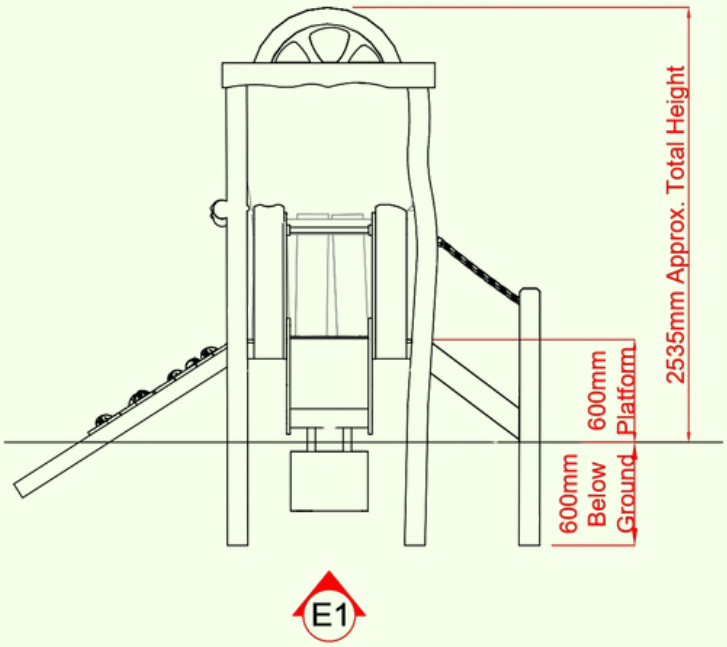

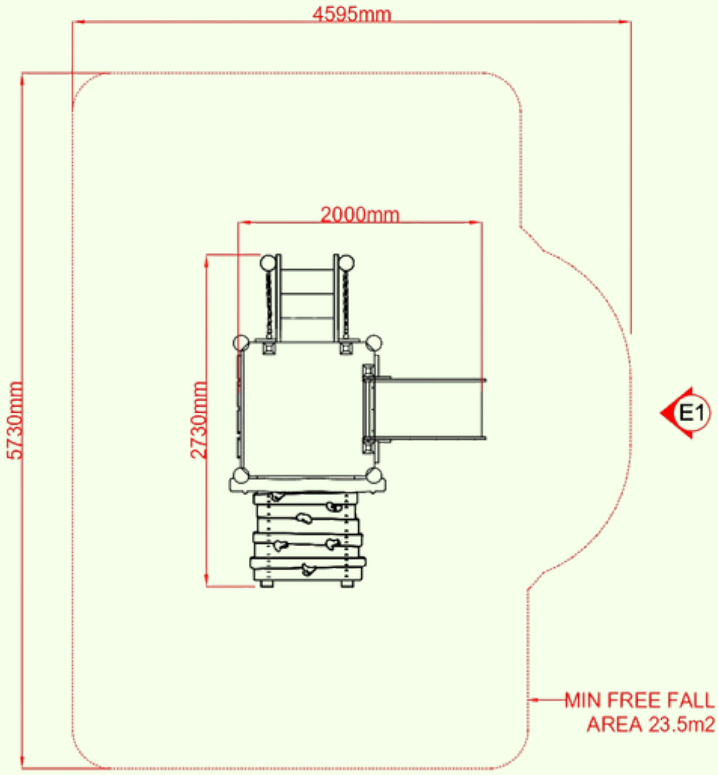

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

DRAWINGS

Free fall/surfacing area - Approx. 23.5m2

Contact us if loose-fill flooring is used (e.g., bark), as an extra 300mm will need to be allowed for into ground installation.
